EDUCATION

Aug 2025 Aug 2027 (exp.)	M1 & M2, Human-Computer Interaction, UNIVERSITÉ PARIS-SACLAY, France M1 result 15.63/20. • Design of Interactive Systems • Evaluation of Interactive Systems • Interactive Machine Learning • Fundamentals of Extended Reality • Situated Interaction • Serious Games • Advanced Design of Interactive Systems • Programming of Interactive Systems • The Art of Fabricating Tangible Interfaces • Advanced Immersive Interactions
Oct 2019 Aug 2023	BSc Computer Science, UET LAHORE, Pakistan GPA 3.51/4. <i>Final Year Project (INOVO):</i> a campus bike-sharing platform designed to cut short-distance vehicle trips and reduce air pollution at UET Lahore. Shaped the product concept, user experience, and pitch that placed INOVO in the top 10 of 168 teams at the ADB CAREC University Startup Generator Challenge.

EXPERIENCE

May 2026 Aug 2026	HCI Research Intern, INRIA, UNIVERSITÉ PARIS-SACLAY, France <i>Supervised by Wendy Mackay</i> • Brainstormed and video-prototyped concepts for La Suite numérique, a French government digital services platform • Contributed to ideation for the DOIT book, authored by Wendy Mackay, exploring more flexible ways for different types of users to access it Literature Review Brainstorming Video & Paper Prototyping Ideation
Jul 2023 Feb 2025	Product Designer, SMARTENDS, Lahore • Led end-to-end design on 15+ digital platforms, including 5 client-critical IoT systems monitoring 1,000+ devices, using Figma to build scalable design systems for AI- and sensor-based products • Built a strategic prototype for a key client proposal that secured a 60% conversion rate and directly generated 30% of quarterly sales • Partnered with developers, PMs, and QA to standardize handoff in Jira and Confluence, cutting delivery friction and technical debt by 40% • Used Webflow to design and launch marketing sites that streamlined the development workflow Product Design User Interface User Experience Design Systems Jira Confluence
Jun 2023 Jul 2023	Product Intern, Scrum Lead, VENTUREDIVE, Lahore • Led the scrum process for the Islamic Finder app's "Learn to Recite Quran" feature, managing backend sprints and cross-functional delivery • Streamlined the production workflow, contributing to a 60% reduction in open technical support tickets Scrum Master Product Management Program Manager
Jun 2022 Nov 2022	Product Manager Intern, OPENAIMP, Remote • Led UI/UX research and the end-to-end product lifecycle for a FinTech application, aligning the interface with user needs and industry standards • Coordinated multidisciplinary teams of developers and designers to deliver on scope and on schedule UI/UX Research Product Lifecycle Cross-Functional Teams

PROJECTS

VINTAGEMUSEUM

FUNDAMENTALS OF EXTENDED REALITY

Co-built a three-room VR museum experience in Unity with a 3-person team, implementing the Cauldron Room’s particle system and the Art Room’s flashlight-guided art hunt mini-game.

Unity C# VR/XR Particle Systems Interaction Design Game Design

MINESWEEPER PRO

PROGRAMMING OF INTERACTIVE SYSTEMS

Built an advanced JavaFX remake of Minesweeper with a persistent shield system, a dynamic time-bonus mechanic, and a real-time HUD across three difficulty levels.

JavaFX Java Game Design UI Design Object-Oriented Programming

COLOR-AI-T

ADVANCED DESIGN OF INTERACTIVE SYSTEMS

Designed a pen-based AI coloring-page generator with a 5-person team, running story interviews and a comparative user study to validate a redesigned drag-and-drop AI canvas.

Prototyping User Research Interaction Design Socio-technical Design Video Prototyping

RESO

DESIGN PROJECT 2

Led a 5-person team designing Reso, a videoconferencing interface visualizing emotion through color-coded captions and sound-rhythm graphs for Deaf and Hard-of-Hearing users, validated via an 18-participant study.

User Research Interaction Design Prototyping Svelte Statistical Analysis Accessibility Design

CONTEXT-AWARE PERSONALIZED SOUND CLASSIFIER

INTERACTIVE MACHINE LEARNING

Co-built a browser-based, client-side sound classifier letting Deaf and Hard-of-Hearing users and trusted validators define sound classes, with PIN-authenticated labeling and context-based personalization.

Interactive Machine Learning Svelte Human-Centered Evaluation Prototyping Accessibility Design

ORCHID

SITUATED INTERACTION

Reimagined breakout rooms as an interactive spatial canvas with a 4-person team, designing direct-manipulation controls grounded in HCI substrate principles (reification, feedforward, feedback).

Interaction Design Spatial UI Figma Prototyping HCI Design Principles

PINJARA KARI

THE ART OF FABRICATING TANGIBLE INTERFACES

 [Project Page](#)

Reimagined traditional “pinjara” latticework through modern 3D fabrication at the Université Paris-Saclay FabLab, designing a modular, one-square-meter installation with precise press-fit joints.

3D Fabrication Parametric Design Digital Design Prototyping

VR FOR ADHD

ADVANCED IMMERSIVE INTERACTIONS

Built a VR game with a 3-person team to train sustained and selective attention in ADHD individuals, featuring a Convai-powered AI guide and adaptive audio-visual task feedback.

Unity C# VR/XR Convai Interaction Design Accessibility Design Blender

SKILLS

Design & Prototyping

Figma Webflow Adobe Illustrator Photoshop Jira Confluence 3D Printing

Research & HCI Methods

Qualitative & quantitative user research Usability evaluation Automation-bias & human-in-the-loop design
Generative walkthroughs Video & paper prototyping User interviews Storyboarding Video brainstorming
Human-AI interaction Evaluation studies Instrumental interaction Substrates & co-adaptation VR/AR prototyping

Languages

English (fluent) Urdu (native)

CERTIFICATIONS & ACHIEVEMENTS

- Agile Meets Design Thinking, University of Virginia
 - Principles of UX/UI Design, Meta
 - Foundations of UX Design, Coursera
- Top Performer, UX Batch 1.0, ZAPTA Technologies
 - Intern of the Month, OpenAIMP
 - Winner, UX Hands-on Workshop 2024, Dairah × Friends of Figma
